

Introduction

Steve Cygu

2021 Nov 04 (Thur)

R interface

A screenshot of a terminal window titled "Terminal". The window has a dark background with light-colored text. The text inside the terminal shows the R version 4.0.5 startup screen, including copyright information, platform details, and instructions on how to use R. The prompt is ">". The user has entered "2+5" and the output is "[1] 7". The prompt is now ">".

Some functions we need to know:

- `ls()`
- `setwd()`
- `getwd()`

Rstudio walkthrough

- Console
